🔗 Portfolio

Profile

Application Developer with 4 years of experience in **Multiplatform Front End Development** using **React.js**, **TypeScript**, and **JavaScript**. Expert in **responsive, cross-platform applications**, **Redux** state management, **RESTful API** integration, and **Git** version control. Strong collaborator in **Agile teams**, delivering user-friendly, efficient, and maintainable solutions.

Professional Experience

05/2024 – Present
Hyderabad, Telangana,
India

Software Engineer

MindwaveAI Solutions

- **Designed and developed responsive, cross-platform front-end modules** using React.js, TypeScript, and JavaScript, ensuring optimal performance across devices and browsers.
- **Integrated interactive features** such as AI-powered chatbots (OpenAI APIs) and communication components (Amazon Streams) to enhance user engagement and meet business requirements.
- **Implemented state management** with Redux, seamless RESTful API integrations, and version control using Git to deliver smooth, efficient, and maintainable solutions.
- **Collaborated in Agile teams**, contributing to design discussions, problem-solving, and delivering high-quality code aligned with evolving project goals.

12/2021 – 05/2024
Chennai, Tamilnadu,
India

Software Engineer

Spinebiz

- **Built responsive, high-performance web interfaces** with React.js, TypeScript, and JavaScript, implementing **unit testing with Vitest** to ensure functionality and code quality.
- **Integrated RESTful APIs and third-party services** to enhance functionality and create efficient, data-driven front-end modules.
- **Optimized front-end performance** by refactoring code, applying best practices in TypeScript and JavaScript, and improving loading times for better user engagement.
- **Collaborated in Agile sprints** with cross-functional teams, leveraging Git for version control and conducting peer code reviews to maintain high-quality, maintainable codebases.

Skills

Frontend Development: Multiplatform Front End Development (React.js), JavaScript (ES6+), TypeScript, Responsive Design.

State Management: Redux, Redux Toolkit

Testing: Unit Testing with Vitest

API Integration: RESTful APIs, Third-Party API Integration (OpenAI APIs, Amazon Streams)

Performance Optimization: Code Refactoring, Loading Time Improvements, Best Practices in JS/TS

UI Libraries: Tailwind CSS, Material UI

Version Control & Collaboration: Git, Peer Code Reviews, Agile/Scrum Methodologies

Education

07/2016 – 09/2020
Bhimavaram,
Andhra Pradesh, India

Bachelor's of Technology, Civil Engineering
Sagi Rama Krishnam Raju Engineering College

Projects

08/2024 – Present

Interval 360 – SaaS-based AI-Powered 360° Feedback Platform

Frontend Developer

- **Developed responsive HR feedback application** with React.js, TypeScript, and Tailwind CSS for 360-degree surveys and evaluations.
- **Implemented role-based portals** (Super Admin, HR Admin, Employees) with automated workflows for feedback collection and reporting.
- **Integrated AI features** using Groq LLaMA 70B for real-time conversational feedback and analytics.
- **Utilized RTK Query and Git** for efficient state management, API data fetching, and collaborative Agile development.

Tech Stack: React.js, TypeScript, Tailwind CSS, Redux Toolkit, RTK Query, RESTful APIs, Git, Agile/Scrum

05/2024 – 06/2025

Nimble Connect – Cloud-based Donor Engagement Platform for Non-Profits

Frontend Developer

- **Developed responsive donor management interfaces** with React.js, TypeScript, and Tailwind CSS to enhance personalized communications.
- **Implemented real-time campaign management UIs** with automated outreach workflows and compliance features.
- **Integrated AWS Connect** to streamline communications.
- **Built interactive dashboards** for campaign analytics and agent performance using RTK Query for efficient data handling.

Tech Stack: React.js, TypeScript, Tailwind CSS, Redux Toolkit, RTK Query, RESTful APIs, Git, Agile/Scrum

12/2021 – 04/2024

Berighthere.com – Workspace & Meeting Space Booking Platform

Frontend Developer

- **Developed and maintained a responsive booking platform interface** for workspace and meeting room reservations, optimized for professionals, startups, and enterprises.
- **Designed intuitive, user-friendly UIs** with React.js, JavaScript, and CSS to deliver seamless search and booking experiences across devices.
- **Integrated RESTful APIs** to display real-time availability and manage secure booking workflows.
- **Collaborated in Agile teams**, using Git for version control and ensuring high-quality, maintainable frontend code.

Tech Stack: React.js, JavaScript (ES6+), CSS, RESTful APIs, Git, Agile/Scrum
